ICP Template

Terry Dwobeng - Property Labs Airbnb Coaching Program

This Document is designed to help you build out your Ideal Client Profile (ICP) from start to finish. By the time you complete it, you will have crystal-clear clarity on exactly who you are marketing to, their goals, struggles, and what truly motivates them to buy.

0 - Document Overview

This section is designed to track the version of your ICP, its owner, and the date of its last review or update.

Product Line Covered	Airbnb Coaching Program - helping junior corporates and late-stage uni students start and run a profitable Airbnb company within 90 days
Version	1.0
Owner / Editor	Terry Dwobeng, Ollie Knight, Alex
Last Review	March 18, 2026
Next Review	June 18, 2026

1 - North-Star ICP Statement

This is your one sentence ideal client summary. It is your golden rule for your business and marketing. Every ad, piece of content, and offer should speak directly to this type of person you want to attract.

ICP Statement:

I help junior corporates or late-stage university students getting into corporate to start and run a profitable Airbnb company within 90 days, achieving a minimum of one profitable property. We also teach raising finance methods for those who do not have enough capital to start, so they can build passive income, escape the corporate grind, and create the time, financial, and location freedom they desire.

2 - Demographic Snapshot

Defines the WHO of your targeting based on concrete evidence or surface-level knowledge around our ideal client.

Attribute	Must-Have	Nice-to-Have	Disqualifier

Role / Identity Badge	Junior corporate professional (finance, law, insurance, or similar fields) OR late-stage university student entering corporate. Has business awareness from small ventures growing up (e.g., selling sweets at school).	Already has some business experience or side hustles. Willing to post on social media to build personal brand.	No job or income source. Under 18 years old.
Income / Revenue	Earning minimum 2,000 GBP/month. Has minimum 5,000 GBP liquid cash ready to deploy after program purchase.	10,000+ GBP liquid in the bank. Good connections for raising finance. Earning 2,500-4,500 GBP/month salary.	Less than 1,000 GBP liquid. No monthly/weekly income coming in.
Education & Tech Literacy	Basic computer skills - can use Google, Microsoft Word, send emails. No coding or advanced tech required.	Comfortable learning new software quickly. Already familiar with property or business systems.	Cannot use basic computer functions or send emails.
Region & Timezone	Primary focus: UK (England, Wales, Scotland, Northern Ireland). English-speaking.	First world countries: USA, Canada, Australia, majority of Europe.	Non-English speaking. Countries where Airbnb model does not work.
Language Proficiency	Fluent English for coaching calls, course content, and landlord communications.	Native English speaker.	Cannot communicate effectively in English.
Delegation Appetite	Willing to commit 1 hour per day to learning and outreach. Must be coachable and follow the system.	Ready to delegate cleaning, maintenance, staging, and communications to team members. Has abundance of money to delegate from start.	Expects everything done for them. Not willing to put in daily work.

3 - Psychographic Deep Dive

This is to understand your ideal client's WHY behind their behaviours, their identity, dreams, pains, buying triggers and learning styles.

Core Identity Story	Someone who has followed the rules - gone to school, gotten good grades, secured a good job. However, they know there is more to life than this. The job does not fulfill them. They have been saving cash but have been either too scared their whole life to make a jump, or they are waiting for that eureka moment where everything changes. They want to start something but do not know the vehicle or exactly how to get started.
Dominant Motivation	TIME FREEDOM - Want to wake up when they want, work on their own schedule. FINANCIAL FREEDOM - Make enough money to not depend on a paycheck. LOCATION FREEDOM - Not be bound to one country, able to travel. STATUS - Show friends and family that they made it. LEGACY - Be the one who brings generational wealth to their family.
Biggest Pain & Emotional Cost	PAIN: Do not enjoy their job. Have to answer to someone. Strict schedule. Long hours. Have to pretend to be someone different to fit in at work. See others doing better than them who are not in corporate. Have to wake up when someone else tells them to. Get told off by random people at work. EMOTIONAL COST: Frustration, helplessness, feeling like they cannot do anything about it. For some, apathy - they have given up and do not even care anymore.
Transformation Vision	REVENUE: 20,000 GBP profit per month. LIFESTYLE: Time freedom - wake up when they want, sleep where they want, not tied to London. Can travel the world, look after family and parents, give back to those who helped them growing up. SCHEDULE: No fixed schedule. 2 hours per day working on business. Rest of day for family, partner, relaxation, living life to the fullest. TEAM: 8 people - 2 cleaners, 2 maintenance, 2 staging, 1 communications VA, 1 personal assistant.
Learning Style	Video-based course modules with step-by-step instructions. Weekly coaching sessions for Q&A. Prefers having contracts and templates provided - just fill in the blanks. Hands-on learning with real property acquisition.
Implementation Bias	Needs clear direction and accountability. Will implement when given specific tasks. Some may need hand-holding initially but goal is to become independent business owner. Resilience required for slow seasons.
Buying Trigger Event	Seeing entrepreneurs online who left corporate and are doing well. Hearing senior colleagues speak admiringly about people who left to chase their dreams. Realizing they have been too scared their whole life to make a jump. Having enough savings and feeling ready to take the leap.

Decision-Maker / Spousal Approval	May need to speak to parents (especially younger clients). Individual decision but may want validation. Some need to speak to partner before committing.
Risk Tolerance	Moderate - this is often the biggest bet they have ever made on themselves. They have been saving for this moment. Need reassurance through raising finance training and clear ROI timeline. If no history of taking risks, this is a big step.

4 - Transformation Gap Map

External Results Transformation

Three types of clients come to the program:

Client Type	BEFORE	AFTER
Type 1: Complete Beginner	Zero Airbnb revenue. Zero leads. Zero units. Been dabbling and wanting to start but have not actually started.	Minimum 1 Airbnb making 800 GBP profit per month. Clear system in place. Confident to scale.
Type 2: Struggling Starter	Started without support. Making 500 GBP to LOSING 1,000 GBP per month. Minimum leads. 1 Airbnb that is not working properly.	Airbnb now making minimum 800 GBP profit per month. System sorted out. Leads improved through investor outreach system.
Type 3: Stuck at Scale	Making minimal profit (500 GBP/month). Has 1 Airbnb. Struggling to go from 1 to 2 to 3 to 4 properties.	Now has 3 Airbnbs making 2,500 GBP profit per month. Investors inbounding through social media framework. Consistent flow of investors through outbound system.

Internal Identity Transformation

BEFORE	Stuck in a box. Think their ceiling is to work at corporate firm, get promoted to top, make whatever money and get taxed 40%. Think going from zero to 10,000 GBP/month in six months is unrealistic. Do not have a growth mindset. Cannot see themselves living a life of time freedom and financial freedom.
AFTER	Growth mindset. Believe whatever they set their mind to, they can do. Confident in business. Realize we live in a capitalistic world and have to play by the rules to win. Understand that if they are not running the machine, what they make is capped.

Everyday Life Transformation

Phase	Schedule	Main Activities	Money Situation
BEFORE	Wake up 7am, hurry to work. Cannot leave until tasks are done. Missing family events and friend gatherings because of work.	Answering to boss. Pretending to be someone different. Getting told off. Stuck in office.	Get taxed heavily. Not enjoying how they spend their money. Feel suffocated.
AFTER	Work 1-2 hours per day on Airbnbs. No fixed schedule. Can be anywhere in the world.	Being the visionary. Bringing in investment. Team handles the hard work.	Monthly passive income. Can start other businesses. Can wait 6 months for property development because cash is flowing.

Proof Metrics

Primary Success Metric	PROFIT - Monthly profit from Airbnb properties. The whole aim is minimum one profitable Airbnb after 90 days making minimum 800 GBP profit per month.
How We Track It	Google Sheets tracking client progress through each stage. Monitor: property acquisition, listing optimization, team building, monthly profit figures.

5 - Offer-Fit Matrix

Shows how your offer solves their exact pains and desires with clear benefits and solid proof points.

ICP Pain/Desire	What We Provide	Benefit (Outcome)	Proof Element
Not making enough money	Complete Airbnb Blueprint course + coaching showing how to generate 800+ GBP/month profit per property	Passive income stream that grows as you add properties. Path to 20,000 GBP/month profit.	Terry built this as a uni student. Multiple client results achieving profitable properties.

Money is not passive - trading time for money	System for building team (cleaners, maintenance, staging, VA) + automation tools (Uplisting, Pricelabs)	Work 1-2 hours per day managing business. Team handles operations. True passive income.	Delegation framework proven to reduce owner involvement to 2 hours/day.
Want to start Airbnb but do not have the money	Raising Finance Blueprint - psychology of why people give money, how large companies raise finance, how Terry raised finance	Start without using own capital. Learn to raise money from investors for each property.	Terry started with no money - financed his program and first Airbnb. Teaching exact methods.
No time freedom - strict corporate schedule	Build cash-flowing machine that works without you. Exit corporate when Airbnb income replaces salary.	Wake up when you want. No boss. No fixed schedule. Location independence.	Client transformations from corporate 9-5 to working 2 hours/day on their own terms.
Do not know how to start or what vehicle to use	Step-by-step course covering: company registration, compliance, property acquisition, listing, optimization, team building, scaling	Clear roadmap from zero to profitable property in 90 days. No guesswork.	Structured 8-stage journey with templates, contracts, and proven systems.

6 - Price-Value Alignment

Ticket Tier	Price	Brief Description	Time to ROI
Airbnb Blueprint (Low Ticket)	500 GBP	Course - set of videos explaining from beginning to end how Airbnb works, how to start your own company, registration, compliance, all the way to systemizing and employing people.	90 days to first profitable property
Airbnb Blueprint + Raising Finance Blueprint (Mid Ticket)	1,000 GBP	Airbnb Blueprint course PLUS Raising Finance course - why	90 days to first profitable property

		people give money, psychology behind it, how large companies raise finance, how to raise finance for Airbnbs, how Terry raised finance.	
Group Coaching (High Ticket)	3,000 GBP	Airbnb Blueprint course + Raising Finance course + one-hour weekly group sessions with Terry for questions and complications.	45 days to first profitable property
One-to-One Coaching (Premium)	5,000 GBP	Airbnb Blueprint course + Raising Finance course + access to group coaching sessions + weekly one-to-one sessions with Terry personally.	45 days to first profitable property

7 - Objection Handling Matrix

Objection (Exact Quote)	Hidden Fear / Root Cause	Counter-Move
I do not have the money right now	Scared they will not make their return at a quick enough rate. Biggest bet they have ever made on themselves.	We teach raising finance strategies. When Terry started, he did not have money to start - he financed getting onto the program AND his first Airbnb project. This is exactly what we teach in the program.
Give me two or three months, I can save up and come back	Want a cushion and comfortability before putting money into program or Airbnb. Delay tactic.	Realistically, when we leave this call, you are not going to fixate on joining for the next 2-3 months. You will forget about your goals. Best time to start Airbnb was years ago. Second best time is now. Every month you delay is a month you lose money. If your dream is 5,000

		GBP/month, three months delay = 15,000 GBP lost.
Airbnbs look saturated to me	Do not think they will succeed when others are doing it. Fear of competition.	Yes, people are starting Airbnbs, but it is met by increased demand. Airbnbs are growing faster than hotels. Wherever there are people, there is need for housing - Airbnb cannot be saturated. Many people do it badly - search Airbnb now and you will see horror listings. There is always space for someone to do it properly.
I need to speak to my parents	Need validation before making big decision. May not have full autonomy over finances.	Understand and respect that. Book a follow-up call. Offer to answer any questions they or their parents have about the program.
I am scared this will not work	Do not take chances on themselves. Probably the largest amount they have spent in their life. No history of taking risks.	Share Terry's story - started as uni student with no money. Show proof of client results. Explain the raising finance module reduces risk. Clear ROI timeline of 45-90 days.
Can I think about it?	Hesitation. The moment of motivation is passing. Want to delay decision.	What specifically do you need to think about? Address the real concern. Remind them that delay costs money and opportunity.

8 - Preferred Content & Engagement Channels

Channel	Usage by ICP	Content Angle
Instagram	Primary platform. Scrolling through reels - sports, music, celebrity culture. Watching Alex Hormozi, Andy Elliott, business figures telling them to do better.	Short-form reels. Property content. Lifestyle transformation. Behind-the-scenes of Airbnb business. Motivational content. Samuel Leeds, Dami PL, RJ Hustle style content.

YouTube	Entertainment consumption - Beta Squad, sports highlights. Unless very serious, not watching 40-minute business videos. Using to numb pain and distract from what they should be doing.	Mix of entertainment and educational. Property strategies. Buying, refurbishing, short-term accommodation. Success stories.
LinkedIn	Part of their job. Need personal brand as corporate professional. Keep up with financial news and industry updates.	Professional positioning. Industry insights. Success stories. Networking content. Thought leadership on property investing.
TikTok	Similar to Instagram - short-form consumption. Quick dopamine hits.	Quick property tips. Day-in-the-life content. Transformation stories. Relatable corporate escape content.

9 - Customer Journey Touchpoints & Benchmarks

Client Journey Stages

Stage	Description	Key Activities
Stage 1: Onboarding	Client joins program and gets access	Welcome call, platform access, set expectations
Stage 2: Materials	Client receives all resources	Courses, contracts, templates, raising finance materials
Stage 3: Fulfillment	Active coaching and support	Weekly sessions with Terry, Q&A, problem-solving
Stage 4: Property Search	Actively looking for properties	Calling landlords, analyzing properties, using deal sources
Stage 5: First Property	Secure and list first Airbnb	Sign lease, set up property, list on Airbnb
Stage 6: Optimization	Make property profitable	Optimize listing, build team, achieve 800+ GBP/month profit
Stage 7: Scaling	Grow the portfolio	Raise finance, find more properties, systemize business

Stage 8: Success	Achieve dream outcome	Making 5,000-10,000 GBP/month from 2-5 properties

Tools & Tracking

Client Progress Tracking	Google Sheets - tracking each client through all 8 stages
Key Software Taught	Uplisting (central hub for all properties, automation), Pricelabs (pricing optimization)
Support Channel	Virtual Assistant / CSM handles support questions between weekly calls
30-Day Quick Win	Raising finance and getting enough money to start their first property
90-Day Core KPI	One Airbnb making minimum 800 GBP profit per month

10 - Negative ICP (Anti-Persona)

Who you DO NOT want to work with - people who drain time or cause friction.

Trait	Why Bad Fit	Funnel Routing
Get-Rich-Quick Expectations	Expect to earn 10,000 GBP/month immediately. Too high expectations. When they realize results take work, they become a hassle and issue.	Screen heavily on sales call. Set realistic expectations. If they cannot accept 90-day timeline, not a fit.
Less Than 1,000 GBP Liquid	Cannot afford program AND starting capital. Will be stressed and desperate for results. High chargeback risk.	Qualify finances early. Minimum 5,000 GBP liquid required (after program cost).
No Monthly/Weekly Income	Only have liquid cash with nothing coming in. Will be suffocated if results take time. Cannot sustain during slow season.	Verify they have ongoing income source. All savings with no income = disqualify.
Does Not Take Accountability	Blames everybody around them and environment for why they are not successful. Will not implement and will	Listen for victim language on calls. If blaming others for current situation, likely will blame coach too.

	blame Terry when results do not come.	
Too Passive / Avoids Difficult Conversations	Not ready to put it all on the line. Not an action taker. Will not do the outreach and landlord calls required.	Assess energy and commitment level on sales call. Ask about past times they took action on goals.
Way Too Eager / Pushy	Messaging multiple times, trying to speed up process. Puts literally everything they have into program and expects the world in return.	Red flag behavior pre-sale indicates problem client. If too eager before paying, worse after.
Unrealistic Ambitions	Example: Client said they want to earn an airport. Charged back after two months. Fantasy expectations vs. realistic business building.	Ask about realistic goals on sales call. If answer is completely detached from reality, disqualify.
Under 18 Years Old	Cannot legally sign contracts. May not have maturity for business decisions.	Verify age during qualification. Must be 18+.

11 - Support & Community Load Forecast

Timeframe	Expected Clients	Support Tickets/Week	Coaching Hours/Week
Month 1	18-20 clients	1-2 questions per client outside sessions	8-12 hours (full Wednesday)
Month 3	45-60 total clients	Increased volume	May need additional support
Month 6	70-80 total clients	Scaled support needed	Team expansion consideration

Support Structure

Primary Support	Virtual Assistant / CSM handles questions throughout the week before coaching calls
Coaching Day	Wednesdays - full day dedicated to coaching (8-12 hours)
Group Sessions	Weekly group coaching calls for High Ticket clients
One-to-One	Weekly personal sessions with Terry for Premium clients

Community	Access to peer support and accountability

12 - Final Gut-Check & Next Steps

Strategic Considerations

Primary ICP	Junior corporate earning 3,000+ GBP/month with 10,000 GBP liquid saved. Business-savvy since young. Dream is to run their own business. Similar age to Terry.
Secondary Market	University students - Terry has unique positioning here as he built this as a uni student. Competitors are tapping this market but Terry has authentic credibility.
Key Differentiator	Terry started with no money as a uni student. Authentic story. Teaches raising finance from personal experience. Relatable to young aspiring entrepreneurs.
Biggest Fear	May miss some people by focusing on corporates. Uni student market is untapped advantage. But if forced to choose: corporates over uni students because of higher financial capacity.

Ideal Client Summary

If Terry could only work with ONE type of person for the next year:

A junior corporate earning a good salary (3,000 GBP/month+) with 10,000 GBP liquid saved after purchasing the program. Someone who has been business-savvy since they were young - always into small businesses. Their dream is not just passive income, but to actually run a business. Why? Because it is very similar to Terry himself. The age gap is not too big. They already have money liquid so no need to worry about finding investors - they can start immediately. They have income coming in every month so the program has not suffocated them. And they already know a thing or two about business because it is something they are naturally passionate about.
